

## Slim Rotation Stage <CRA05A-WT20>

This slim motorized stage is used for rotating a small or thin sample. The stage height is just 20mm, while the height of normal model RA05A-W01 is 40mm.

### Features

- ◆ The stage height: 20mm ( Normal model RA05A-W01 40mm)
- ◆ Compact motorized rotation stage
- ◆ The load capacity is 2 kg.

### Specifications

Model	CRA05A-WT20
Table Size	Φ50 mm
Height	20 mm
Actuator	5-phase stepper motor
Weight	0.5 kg
Maximum Load Capacity	2 kgf
Guidance Mechanism	Radial Bearing Guide
Resolution (Full Step)	0.00016 degree / step
Stroke	360°
